Welcome to our Muslim AI hackathon for social and ethical integrity. We're so excited to have you join us this year. This handbook includes some of your go to information for the weekend of.

Table Of Contents:

MY Hack 101

What is a hackathon?

You can literally create anything you want (as long as it aligns with our [project categories](#))!

 Click the presentation below for an overview.

[MY Hack 101](#)
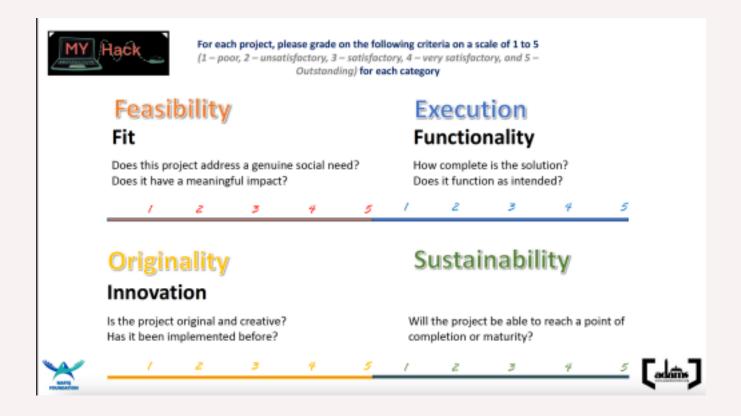

Problem Statement

➔The [following link](#) will redirect you to the problem statement/ categories that your hack should align with.

➔ Remember to be creative, you can create a web page, app, meme generator, app template, whatever you want! Just make sure to tailor it so that it aligns with the categories.

➔ Examples from various hackathons:

- Meet me

- Sage Social

Rubric

Here's a brief overview of what judges will be looking at when reviewing your hack!

Submissions

1. Go to https://my-hack-23.devpost.com/

2. Click "Register for this hackathon"

3. Sign up for Devpost if you don't have an account already

4. Click "Enter a submission"

5. Click "Add a new project"

6. Fill out information about your project

7. Click "Submit to Hackathon Demo"

8. Feel free to edit your project page before the deadline.

   **This video provides a great run-down of the process!**

Presentations

After you've submitted your hack, you will be expected to give a short presentation to the judges of your demo. Make sure to do the following during your presentation:

- Describe what your project does

- Demonstrate how it works

- Explain the technology used

- Discuss what you learned

- Pitch time: 5 minutes max

- Judge Q/A: 5-10 minutes

Program Schedule

 NOTE: It should be a given that hackers start brainstorming as soon as possible with their team members. Before workshops, in between, after and any time they can, hackers should be working on their demos as much as possible.

MY HACK

DAY 1

August 5, 2023

8:00 -10:00 AM	**PARTICIPANT CHECK-IN & BREAKFAST**

Dar Al- Taqwa

FAQs

1. How do I form a team?

There are two ways: either you bring your own team members or meet members on the day of the event to form your team

2. Will food be provided?

YES! Breakfast, lunch, dinner , snacks, and drinks will all be provided :)

3. Which workshops should I attend?

There will be 5 workshops, but the only mandatory workshop is the project management session. Choosing any other workshops you want to attend is up to you. Try your best to attend as many as you can by dividing your team members to join parallel workshops.

4. Do I have to stay overnight?

We strongly recommend that you stay overnight, but you don't have to. This will be an experience for you as there will be games and activities beyond working on your hack or attending workshops :)

5. Where do we sleep?

This is a "no-sleep" hackathon. If you choose to nap or sleep then we suggest you go home whenever you feel tired.

6. Will there be carpool/ transportation help?

If you let us know in advance, we can help arrange any transportation services from ADAMS, Diyanet Center of America, or ISB.

7. What are the prizes?

It's a surprise :) But there will be cash prizes of up to $500 for first place winners. **8. Can high school and college students be on the same team?** Yes, of course.

9. Do I need to know how to code before joining?

No! This is an event for you to come learn new things and expand your abilities! If you have previous coding experience that's great but if you don't, don't let that set you back. There are so many ways you can still create an app demo or webpage or pitch a hack idea without prior coding knowledge. If you want to make your hack more coding intense you can always use the help of mentors and your teammates to learn from them!
